## INTERNATIONAL SEARCH REPORT

International application No. PCT/JP03/04614

A. CLASSIFICATION OF SUBJECT MATTER C07K7/08, 1/06, 14/00//C12N 15/09 According to International Patent Classification (IPC) or to both national classification and IPC **B. FIELDS SEARCHED** Minimum documentation searched (classification system followed by classification symbols) C07K7/08, 1/06, 14/00//C12N 15/09 Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) PubMed, BIOSISI/WPI (DIALOG) C. DOCUMENTS CONSIDERED TO BE RELEVANT Relevant to claim No. Citation of document, with indication, where appropriate, of the relevant passages Category\* Y Niidome T. et al., Binding of cationic alpha-1-28 helical peptides to plasmid DNA and their gene transfer abilities into cells., J.Biol.Chem. 13 January, 1997 (13.01.97), Vol.272, No.24, pages 15307 to 15312 Y WO 01/49324 A2 (NOVARTIS AG.), 1-28 12 July, 2001 (12.07.01), & EP 1242609 A2 & AU 200133669 A Y SAKAKIBARA, T. et al., Doxorubicin encapsulated 1-28 in sterically stabilized liposomes is superior to free drug or drug-containing conventional liposomes at suppressing growth and metastases of human lung tumor xenografts., Cancer Res., 15 August, 1996 (15.08.96), Vol.56, No.16, pages 3743 to 3746 Further documents are listed in the continuation of Box C. See patent family annex. later document published after the international filing date or Special categories of cited documents: document defining the general state of the art which is not priority date and not in conflict with the application but cited to considered to be of particular relevance understand the principle or theory underlying the invention earlier document but published on or after the international filing document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive date document which may throw doubts on priority claim(s) or which is step when the document is taken alone cited to establish the publication date of another citation or other document of particular relevance; the claimed invention cannot be special reason (as specified) considered to involve an inventive step when the document is document referring to an oral disclosure, use, exhibition or other combined with one or more other such documents, such combination being obvious to a person skilled in the art document published prior to the international filing date but later document member of the same patent family than the priority date claimed Date of the actual completion of the international search Date of mailing of the international search report 15 July, 2003 (15.07.03) 29 July, 2003 (29.07.03) Name and mailing address of the ISA/ Authorized officer Japanese Patent Office Telephone No. Facsimile No.
